

SCHEDULE “A1” - SENIOR’S COMMITTEE REPORT

Our committee met November 13 at Sun and Flowers to discuss our programme for 2014. We have an article in the December Buzz. One topic we want to look into is temporary greenspace in small empty lots. We are concerned about safe sidewalks for seniors and so look forward to the Ecology Ottawa audit and follow up. The announcement this week regarding the end of home deliveries for mail and the location of the new communal post boxes will be a topic of interest to many seniors living in the city. Our next meeting is waiting for me or preferably someone else on the committee to organise.

SCHEDULE “A2” - TRANSPORTATION COMMITTEE REPORT

The transportation committee would like to propose that the board adopt/approve its report on the Elgin St walkability audit. Board members should have received a copy by e-mail last week.

SCHEDULE “A3” - TREES AND GREENSPACE COMMITTEE MEETING

Ed Lawrence has responded positively to our request to present at the next Trees and Greenspace event. The event will tentatively be taking place on Saturday March 15th at the Ottawa Public Library (Metcalfe Street at Laurier).

In anticipation of this exciting T&G celebrity event we would like to place a call for any interested volunteers to help with the planning and event facilitation for the big day. Please reply directly to this e-mail account to express your interest to volunteer for the Ed Lawrence event or for any T&G related questions or comments.

Next Committee Meeting - Given availability over the Holiday period, the next meeting will be held on Monday January 13th @ 7pm at the Centretown Community Health Centre, 420 Cooper Street. A draft agenda will be distributed in advance of the meeting
